

About Us

"Since working with Stepping Stones our son is now able to point to pictures to communicate with us, play with a variety of toys and his eye contact is improving!"
-Parents of a child with Autism

"Stepping Stones takes the time to fully asses each child and develop various learning, sensory and kinesthetic techniques that will help will help them in various environments"
-Summer Day Camp Supervisor

Founded by special needs expert Jennifer Di Pietro Stepping Stones Child & Family Services offers services and support to families, child care centres and recreational programs across the GTA.

It is our strong belief that EVERY child deserves a chance to learn, grow and interact. And like the parents of our clients, we feel very strongly that all children – no matter what their needs or challenges – deserve to be included in the classroom, in the community, and in society.

- ABA Therapists
- Respite Services
- Advocacy
- Specialized Tutoring

Our Belief

We strongly believe EVERY child deserves a chance to learn, grow and interact. Like the parents of our students, we feel very strongly that all children – no matter what their needs or challenges – deserve to be included in the classroom, in the community, and in society. We also believe in active collaboration with *everyone* who is working with your child. Consistent teaching and modeling throughout all environments – from home to school and beyond – are vital.

Our Process

It all starts with a conversation. Call us to book an initial meeting. We will come to your home to discuss your child’s overall health and development, your family situation, and areas of concern – and convey how Stepping Stones can support. A one-time consultation fee will be required. It’s then it’s up to you to decide if you’d like to work with us.

Our Approach

With a solid foundation in Early Childhood Education and a genuine love of working with young people and their families, we offer a unique approach that makes your child feel comfortable, but also pushes them gently forward to master the skills and behaviours they need.

We strive for a relaxed, pleasant atmosphere where children can generalize skills very early on. We don’t just sit at a table to learn. Your child will learn in their own home, in the park, on the floor, on the couch – so they can transfer their skills to whatever environment they’re in, not just in a classroom setting.
